## METO - Your Retail Label Expert

In keeping with its new claim, “Your Retail Label Expert”, METO develops, produces and sells a large number of labels and labelling solutions. Our portfolio includes price and advertising labels, products for labelling in accordance with the German Food Information Regulation (FIR) and HACCP directives, barcode labels and electromagnetic merchandise security labels. We supplement this portfolio with cost-efficient solutions for fresh produce labelling, fixture solutions for electronic price labelling, and sales promotion solutions.

For nearly 60 years, METO has repeatedly invented labelling and sales promotion solutions that continue to define today’s standard practice in the retail sector. In doing so, we have made it possible for retailers to inform customers of prices, use-by dates, product information, special promotions and much else besides in an effective manner while doing a better job of communicating all types of information that promote sales.
